

## Auckland Unitary Plan

### Notification of Material to be Incorporated by Reference into the Auckland Unitary Plan Operative in Part

Auckland Council is seeking to incorporate the Auckland Council's Code of Practice for Land Development and Subdivision, Resource Management (National Environmental Standards for Telecommunication Facilities "NESTF") Regulations 2016, Resource Management (National Environmental Standards for Freshwater) Regulations 2020, Auckland Council Guidance Document 15: Climate change scenarios (GD15) November 2024, Auckland Council Solid Waste Calculator (Taken from the Auckland Design Manual, specifically the spreadsheet 'Multi-unit Development Waste Space Calculator V3R2 Beta.xlsx'), Landslide Planning Guidance: Reducing Landslide Risk through Land-Use Planning GNS Science (January 2024), Technical Report 2025/7 Auckland Region Landslide Susceptibility Assessment May 2025, Guidelines for the development and application of engineering geological models on projects International Association of Engineering Geology and the Environment Commission (2024) and Guidelines for natural hazard risk analysis on public conservation lands and waters – Part 3: analysing landslide risk to point and linear sites GNS Science (2024/37), 2024 (revised August 2025), by reference into the Auckland Unitary Plan Operative in Part under Clause 34(2)(d) of Part 3 of the First Schedule of the Resource Management Act 1991(RMA).

Material incorporated by reference is publications that have been referred to in the body of a proposed plan or a proposed plan change. This document may include standards, requirements, recommended practices or any other written material dealing with technical matters. In this case, the Auckland Council's Code of Practice for Land Development and Subdivision, Resource Management (National Environmental Standards for Telecommunication Facilities "NESTF") Regulations 2016, Resource Management (National Environmental Standards for Freshwater) Regulations 2020, Auckland Council Guidance Document 15: Climate change scenarios (GD15) November 2024, Auckland Council Solid Waste Calculator (Taken from the Auckland Design Manual, specifically the spreadsheet 'Multi-unit Development Waste Space Calculator V3R2 Beta.xlsx'), Landslide Planning Guidance: Reducing Landslide Risk through Land-Use Planning GNS Science (January 2024), Technical Report 2025/7 Auckland Region Landslide Susceptibility Assessment May 2025, Guidelines for the development and application of engineering geological models on projects International Association of Engineering Geology and the Environment Commission (2024) and Guidelines for natural hazard risk analysis on public conservation lands and waters – Part 3: analysing landslide risk to point and linear sites GNS Science (2024/37), 2024 (revised August 2025), are referred to in a potential proposed plan change to the Auckland Unitary Plan to be notified on 03 November 2025.

### Period for Submission – Thursday, 25 September 2025 – Thursday, 09 October 2025

The material to be incorporated by reference, together with the submission form, may be viewed at <https://www.aucklandcouncil.govt.nz/MIBR>

If you have any questions about the material listed or would like to request a copy please contact [unitaryplan@aucklandcouncil.govt.nz](mailto:unitaryplan@aucklandcouncil.govt.nz)

You may make a submission (pdf form provided online) either:

- Online at <https://www.aucklandcouncil.govt.nz/MIBR>
- by post to: Auckland Council, Attn: Planning Technician, Private Bag 92300, Auckland 1142
- or lodge in person at one of the service centres, libraries or local board offices

The process for public participation in the consideration of the proposed material to be incorporated by reference under the Act is as follows:

- all submissions will be placed on council's website

- the council will consider all points raised within the submissions and the recommendations from this will also be placed on council's website

John Duguid  
General Manager, Planning and Resource Consents

Notification date: 25 September 2025
